

PRESS RELEASE

Margot Roedel Receives ACHCA Facility Achievement Award

The American College of Health Care Administrators (ACHCA) recently recognized Margot Roedel as a 2012 recipient of the ACHCA Facility Achievement Award. The award was presented during the awards banquet at the ACHCA Annual Convocation and Exposition in Nashville, Tennessee on Sunday, May 6, 2012. Mrs. Roedel is the Administrator of Tuscola County Medical Care Facility in Caro, Michigan, and was one of only 20 recipients nationwide.

The ACHCA believes that facility excellence is a reflection of leadership excellence, and established the Facility Achievement award to showcase the best performing skilled nursing facilities in the United States. Made possible with the support of eHealth Data Solutions, the award honors those administrators in the long-term care industry who advance excellence and quality in their organizations. Recipients' facilities are recognized for their performance in health surveys, fire (life safety) surveys, complaint surveys and overall quality measures outlined by the industry. The award is based on three years of data, and is a tremendous honor for the administrators and their staffs.

“This is such a tribute to our entire facility,” said Mrs. Roedel. “It is not my award, it is our award. Because the excellence being recognized here is the result of a true commitment to professional standards and quality care promoted by all the staff at TCMCF. I am honored to work with each and every one of these dedicated and caring employees.”

Founded in 1962, The American College of Health Care Administrators (ACHCA) is the only professional association devoted solely to meeting the professional needs of today's long-term care administrators and executives. Focusing on advancing leadership excellence, ACHCA provides professional education and certification to its diverse membership of administrators from across the continuum of long-term care.
